Kill the Noxious Weeds

Mr. Peters, provincial weed inspector, gave an address on Friday evening in Winterburn hall, on the subject of weeds. The hall was fairly well filled by the farmers of the surrounding districts, who are taking quite an interest in the present campaign which is being waged to eliminate this pest. At the close of Mr. Peters' address, another speaker gave a short account of the work being done in the outlying districts of the Province by the Red Cross. Mr. Pinchbeck was in the chair. Mr. John Metcalf, weed inspector for this district, and Weed Inspector T. Graden, from Ingle, were present.

Edmonton Exhibition.

The Grand Historical Pageant being staged at the Edmonton Exhibition this week is proving a performance of unsurpassed excellence. Differing in every respect from the production of last year, the Pageant will portray the main features of Canadian history from the time of the early French settlements. These historical scenes will be interspersed with ballets of dainty dancing, smart drills and striking pantomimic effects. The pageant, culminating in the Human Flag and Wheel of Life when everyone taking part, 1000 persons in all, will be seen on the stage at the same time, and everyone should make a special effort to attend.

Railway Time Table.

Going east—Every morning at 6.55 except Tuesday.
Going west—Every night at 10.35 except Sunday.

All places of business in Stony Plain will close at 1 o'clock every Wednesday afternoon during June, July and August. The Postoffice also closes at this time.

LOCAL NEWS.

Mr and Mrs Louis Strass and two children arrived on Tuesday from Mennigon, Bavaria, and are visiting in Stony Plain with Mr and Mrs Karl Strass.

Mr Ralph Hodgson, an employee of the Hardwick General Store in the early days but now of Honolulu, H. I., was a visitor in Stony Saturday, having motored up from Frisco.

Mrs T. Robinson is spending the week with friends in the City.

Mrs Karl Smetana of Glory Hills has been taken in to an Edmonton hospital, for treatment.

Mr Geo Klushin was operated on for appendicitis at the Misericordia hospital yesterday.

Mr Philip Baron has purchased a new truck for the mail and oil services.

In Stony Plain, on Saturday July 15, to the wife of Rev H J Boettcher, a son.

During the storm Monday evening, lightning struck the barn of F Horn, north of town, destroying building and contents, nothing having been saved. The west wind help prevent flames from spreading to his residence. There was an insurance on the barn, carried thru John A. Rerry.

Shoppers who patronise Stony's business places will be doing our merchants and their assistants a favor by arranging to make their purchases at some time on Wednesday before 1 p.m. It's tough for a merchant to refuse goods to a customer after this hour, but if he does he's liable to a fine for a breach of the Early Closing Act.

The former bad stretch on the Meridian road, near Val Kulak's farm, has been put in excellent shape by raising the grade to a new high level. The road from town to Sinner's corner is now as good as could be wished. It is understood the work was done mutually by men from both the municipal districts, but it was only accomplished thru the persistent efforts of Reeve McKinlay to have a permanent job done here.

The initial step in the proposed improvements to the Meridian road north of the Baseline was commenced last week by the cutting of a drainage ditch on the west side of the road from the Henkel farm south. Some \$1100 has been set aside for the proposed improvements, Spruce Grove contributing \$700 and Ingle \$400. The work, so far, has been under the supervision of Councillor McLaughlin. The resident farmers of the Hills and Muir Lake are greatly pleased at the prospect of a good road.

The Canadian People

In rounding out the celebration of the Diamond Jubilee of Confederation, the Dominion Parliament at its next session might well take one more step to further promote a united Canadian sentiment and develop a stronger Canadian national spirit by making legislative provision for the recognition of the Canadian race, and to enact that a person born in Canada, whatever their racial descent, shall be designated in the census returns of this Dominion as a "Canadian."

At the present time, tens of thousands of native-born Canadians are made to suffer a feeling of inferiority, not only in their own eyes but before the world, through their inability to record themselves as Canadians. Under the census regulations of the past they have been forced to designate themselves as English, Irish, Scotch, French, Dutch, German, American, — anything but what they really are, Canadians.

As a result, the census statistics of this Dominion advertise to the world that this country of Canada is inhabited by all manner of races and conditions of people, except Canadians. That in all this broad Dominion, a self-governing nation in the British Commonwealth of Nations, with a status equal to that of Great Britain itself, and a full-fledged member of the League of Nations, there is no such person as a Canadian.

If in England the same antiquated and obsolete system of census enumeration prevailed, many families who have lived in England for centuries would be compelled to classify themselves as Dutch, or French, anything but English. His Gracious Majesty the King, the Prince of Wales, and other members of the Royal Family would be recorded as German. In the United States, if our absurd system existed, there would be every known race under the sun, except Americans.

It is the un-understanding inattention of the Ottawa authorities in this matter which is one of the causes of people in other lands failing to understand and appreciate the national and international position of Canada today.

Furthermore, the existing state of things is most unfair to the people of Canada. There are thousands of Canadians whose parents, grandparents, great-grandparents, were born in Canada, and who do not know, and much less care, whether generations back their forebears originally hailed from the British Isles, the continent of Europe, or the Isles of the Seas. They are Canadians. That is good enough for them, and it ought to be good enough for the Canadian Government.

In some cases a man's great-grandfather may have been Scotch and his great-grandmother French; their son may have married a German; the female offspring of this latter union may have married a Ukrainian born in Canada but one of whose parents was a Hungarian, who in turn had Russian blood. What is the nationality of such a Canadian-born man? He himself does not know, and it is doubtful if the average census enumerator can figure it out. The only point on which the enumerator is clear, and because the Government in its instructions to him makes it absolutely clear, is in the may, is not a Canadian regardless of the number of these generations of varying racial descent who were born in Canada.

"Canada our Country" was the motto of the Diamond Jubilee celebrations. "Our people Canadians" should be the record disclosed by the census returns, not a conglomerate mixture of peoples. Under the existing system of enumeration it is not at all surprising that so many false statements are being made to the effect that Canada is rapidly becoming a non-English country, and that the foreign-born predominates. If the children of three and four generations of native-born Canadians must still be classified as Russian, or German, or Austrian, anything and everything but Canadian, it is small wonder that people who do not understand our uniquely absurd system are misled and arrive at conclusions the very reverse of true.

Canada's Diamond Jubilee year is a most appropriate time for Parliament to right this injustice to so many of its citizens and to the Dominion as a whole.

FACE LOOKED TERRIBLE

Pimples Were Awfully Painful. Cuticura Heals.

"A small pimple broke out on my chin, and I scratched it causing more to come. The pimples were hard and sore and it was most itching. They faded and were awful painful, and my face looked terrible. I was discouraged because when I went out it seemed as if everyone was looking at me."

"I began using Cuticura Soap and Ointment and in a week's time I could see they were helping me. I continued using them for a month and the pimples disappeared. I was healed." (Signed) Mrs. Henry Hild, Borden, P. E. I., Nov. 19, 1926.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Tablets are essential.

Sent by Mail Free by Dr. J. C. Ayer, Lowell, Mass. Write to Dr. J. C. Ayer, Lowell, Mass. for Cuticura Soap, Ointment and Tablets. Price 25c.

Quick Stop for Airplanes

New Device Will Permit Planes to Land on Roofs of Buildings

Airplanes can now be safely brought to a stop within a distance twice their own length under a reversing propeller arrangement patented by C. Francis Jenkins, noted Washington inventor.

The propeller cannot be operated until the plane lands, Jenkins explained, and when thrown in reverse halts the airplane with the ease of powerful brakes.

The inventor believes his device will permit air fields for mail and commerce to be established on the roofs of buildings, eliminating the slower and costly hauling of mail, express and passengers from suburban fields.

Sour Stomach Risings

Subdued by "Nervine"

A Few Drops Bring Relief

The wonderful relief you get from twenty drops of Nervine will surprise you. Take it in sweetened water, and almost instantly you feel better. Nervine brings up the gas caused by fermenting food, and relieves the distress of feeding the stomach. When colic, cramps strike you at night, Nervine is a sure relief. For general use in the family, for emergent use, always keep twenty drops of Nervine on hand. 25c at all dealers.

Mapping Canada From the Air
Since 1921 when aerial photographic surveys were begun by the Topographical Survey of the Department of the Interior, 25,000 square miles in Canada have been covered by vertical photographs and 127,740 square miles by oblique aerial photographs.

DEBILITY DUE TO INDIGESTION

Perfect Digestion Comes Through Rich, Red Blood

There can be no perfect digestion unless you have rich red blood. This is scientifically true. It is also true that there is no tonic for the stomach that does not act on the blood. For every other part of the body, for every other organ, the blood is the tonic. To tone up the stomach is to tone up the blood.

The many so-called stomach remedies merely try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work as nature intended. There is no pleasure in eating perfect food. Tone up your stomach and your appetite, and digestion will soon be normal.

If your digestion is weak and you blood thin, you need the help of Dr. Williams' Pink Pills to enrich the blood and restore strength. In addition use care in the selection of your food and your stomach trouble will soon pass away. My Good Friend, Peterboro, Ont. tells as follows what this medicine did for him. He says: "Something came wrong with me. I was a gasping salesman when I was taken sick. I felt very miserable and lost two pounds in weight. I did not sleep well and could not eat as I could scarcely retain anything in my stomach. I went to a local doctor who told me the future of the gas had got into my system. He gave me some medicine and told me I had better go to the country for a change of air. I did so, but I still felt listless and gassy, and had no ambition. On the advice of a friend I decided to try Dr. Williams' Pink Pills. I had not been taking the pills long before I was beginning to rest better, and to eat fairly well. I kept on taking the pills until at the end of the seventh box I knew I did not need any more, as I had gained the weight I had lost, slept well and could eat anything. I have had splendid health and cannot say too much in praise of Dr. Williams' Pink Pills."

You can get these Pink Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Teacher: "For men must work and women must weep. What is the meaning of that line, Tommy?"

Tommy: "It means that men have to work to get money, and that the women have to cry before the men will divide it with them."

Insulin Capsules Made Insulin may now be taken in capsules, according to investigators at the University at Breslau, Germany who claim to have found a substitute for the pancreatic fluid. Hereafter the remedy for diabetes could not be given in the form of drops, powders or tablets, but must be injected under the skin. Prof. J. C. Mikowski, who conducted the method of giving insulin has been effective in a number of cases.

Farmers Market Tour

An Exceptional Opportunity for Farmers of Western Canada to Visit the Old Land

The British market must ever remain the most desirable outlet for Canadian farm products. As a result of keen competition from other countries, it is vital that the Canadian farmer should become familiar with what this market desires. As very few agriculturally trained observers from this country have had this privilege, many would welcome the opportunity of making an intimate study of marketing conditions at first hand. There has therefore been organized a "Farmers' Marketing Tour" by the Department of Agriculture of the Canadian National Railways. This tour, which will be open to any Canadian farmer, will be of some seven weeks duration, leaving Halifax January 8, next, with a full month spent in the old land, during which important marketing centres in England and Scotland and some of the farms where famous breeds of livestock have been developed, will be visited, with a side trip to Denmark for a study of co-operative marketing in land of its birth.

The tour originated by Dr. W. J. Black, director of colonization, agriculture and natural resources, on the Canadian National Railways is being planned to provide the maximum of educational value, combined with all the pleasures of the ordinary sight-seeing tour. The study of conditions abroad by a large group of observers from the farms in Canada should have its practical results in the successful application of the knowledge gained on such a tour to the general improvement of the agricultural industry in Canada.

The tour is essentially for the Canadian farmer. Any farmer anywhere in Canada, or anyone vitally interested in agriculture and marketing problems, and in the development of wider markets for Canadian products, may join the tour, and it will also be possible for women who are interested in any phase of agriculture to go.

The cost of the tour from the time of leaving Halifax, Canada, until the return to that port will be \$600.00. This cost includes all ocean fares and meals, railway and bus fares in the old land, accommodation at good medium-class hotels, meals and ordinary costs incidental to the tour while overseas.

In addition, members of the party will pay their railway fare and cost of travel to and from the port of sailing at the rate provided, and will be required to bear passport costs, Government tax on steamship ticket, tips on the party, and the Atlantic and personal expenses such as laundry, etc., and any additional expense of entertainment incurred by themselves.

Ocean accommodation is being provided by the White Star Line, Canada Service. The party will sail on the steamship "Devonian" on Sunday, January 8th, the accommodation for the party being tourist class with run of ship. The return voyage will be made on the steamship "Albertic," sailing from Montreal on February 19th, the accommodation for the party on this ship being tourist class. The accommodation and service on these well known steamships is excellent and the party is assured of a pleasant and comfortable voyage. Members of the party wishing to remain longer in the old land may arrange for similar accommodation on any later ship through the White Star Line offices overseas.

Gum-Dipping

A Firestone Contribution to Economical Travel

The greatest enemy to tire life is not the chopped-up road, the broken pavement or the harsh grind of rough city streets—but heat, which is created by internal friction. Heat not only weakens the fabric, but also softens the rubber and causes blowouts and tire failures.

Firestone chemists and engineers knew that if they could find a way to eliminate this destructive heat and internal friction, the mileage-giving qualities of tires would be greatly increased. Such a method was found and called "Gum-Dipping."

The Gum-Dipping process is one of Firestone's contributions to economical travel—in insulates and impregnates every fiber of every cord with rubber, reducing internal friction and at the same time binding the cords together to stronger union of rubber, thus giving greater strength and flexibility to the tire.

Firestone dealers everywhere—familiar with Gum-Dipping and its advantages—will gladly explain how thousands of extra miles can be gained in Firestone tires by this exclusive method. Take advantage of the Gum-Dipping process this summer.

Opening Up of Western Canada Has Been the Greatest Factor In Development of the Dominion

It is generally agreed throughout Canada that the opening up of Western Canada has been incomparably the greatest single factor since Confederation in the recasting of Canada's industrial and commercial life. A major portion of the change in the complexion and stature of Canadian trade abroad, and in the entire field of domestic industry, is traceable directly or indirectly to the agricultural expansion in Western Canada.

Agriculture is the basic industry of the Dominion. It has exercised the greatest influence upon both the degree and the direction of Canada's material progress. The Dominion is now the world's largest exporter of wheat and oats in the production of other grains, in dairy products and in the other yields of farm and orchard. Canada holds an important place. Wheat, however, has been the most powerful factor in attracting population and capital to the Dominion, in bringing virgin areas under cultivation, in widening the market for domestic manufacturing, mining and other industries, in building up the volume of export trade and creating purchasing power necessary to finance the substantial import of a variety of commodities. Wheat, too, has proved a veritable economic factor to the country as a whole.

At the time of Confederation, the total production of wheat was about 15,000,000 bushels. Last year the yield totalled 410,000,000 bushels in round figures. Most of the wheat crop is now marketed by the Canadian Wheat Pool, a farmer's co-operative organization, the largest of its kind in the world, evidence of the vision and genius of the Canadian farmer. The growth of every branch of agriculture and horticulture in recent years has been phenomenal. In 1927 the total value of agricultural products was in the neighborhood of one hundred million dollars. The value of the field crops alone in 1926 has been computed at \$1,121,447,000, and these figures do not include hundreds of millions worth of dairy and other agricultural and fruit products.

Foot and Mouth Disease

Outbreak in England Will Prevent Importation of Stock

The department of agriculture, Ottawa, announces a new outbreak of foot and mouth disease in England at Wixington, Tamworth, Staffordshire. Many permits have been issued for the importation of pure bred cattle, sheep and swine from Great Britain, this season, up to date, and this new outbreak will necessitate the holding up of these importations, insofar at least as those from England are concerned, until that part of Great Britain is once again free from this disease.

In the case of importations coming from Scotland, it is not the intention of the department to stop importations on condition that affidavit can be made to the effect that the stock being shipped from Scottish ports has not been in England within 40 days of export, nor been in contact with cattle coming from England within that time. Further, it will be required that boats carrying such cattle from Scotland must not touch at English ports after loading.

Canada's Wealth
The population of Canada is now about one-hundred-and-twentieth of the estimated total population of the world. Yet this small proportion of present population produces 28 per cent of the world's asbestos, 85 per cent, of its nickel, 22 per cent. of its pulpwood, 20 per cent. of its lumber 30 per cent. of its cured fish, 18 per cent. of its oats, 15 per cent. of its potatoes, 11 1/2 per cent. of its wheat and 11 per cent. of its barley. Canada today ranks seventh among the great nations of the world as regards wealth. Between 1870, three years after Confederation, and today, Canada's national wealth has increased sevenfold.

Among the policeman on duty in the exclusive West End of London are experts in German, Spanish, French and Italian.

W. N. U. 1929

Latest Thrill in Mountain Motoring

One of the Most Spectacular Drives in the Canadian Rockies

The automobile has followed the locomotive through one more barrier of the Canadian Rockies. Forty-two years ago the first locomotives slipped down the lower Kicking Horse Canyon from Field into Golden and the Columbia Valley. This year the automobile will follow. It is another substantial step towards the direct Calgary Vancouver Highway.

Leaving Field the new road follows the railway down the wide valley of the Kicking Horse, headed almost due south, leaving behind the glorious group of peaks that forms the President range looking across at the snow-tipped Van Horne range, with the Beaverfoot peaks in the distance ahead.

Between Field and Leachell the valley of the Kicking Horse is fairly open, but almost before the motorists notices it, he has left a bit a mountain meadow and begun to climb and in a few minutes he is perched on the mountain side. The railway line, from 500 to 700 feet below, is in plain view nearly all the time and one sees what the engineers had to contend with in getting it through beside the raging Kicking Horse.

The drive through the canyon is thrilling. The traveller scales mighty heights and looks upon vistas of indescribable beauty. Nature has done some of her most gorgeous scene painting. Pine-clad mountain sides are variegated with splashes of poplar that relieve the sombre tone of the conifers. Nature has splashed her brush over the many-colored rocks and shales.

But her masterpiece is the climax at the finish. When the canyon reached its widest stage, when highway and railway seem to be almost crowded out, suddenly one is looking out over the wide valley of the Columbia. The great lazy river sprawls out on the floor of the valley, slowly making its way north along its sandbar strewn bed to the mighty sweep around the Big Bend.

Those who make the trip from Field to Golden will agree that the 17 mile stretch between Leachell and Golden will not take second place to any other part of the Alpine trans-Canada highway for spectacular thrills and scenic grandeur.

Hon. C. A. Dunning Explains Object of Aerial Expedition To Collect Data On Hudson Strait

The Right Time to Harvest With a Combine

Grain Must Be Dry and Hard Before Cutting

The only safe rule to follow in combine harvesting is to wait until the majority of the grain in the field are dry and hard. This was made plain in a series of investigations conducted at the Dominion Experimental Station, Swift Current, Sask. The results of which are detailed in a Dominion Department of Agriculture pamphlet entitled "The Combined Reaper-Thresher in Western Canada."

In harvesting with the combine the grain is threshed at the same time as it is cut. It is therefore necessary, when the combine is used, to let the crop stand from 10 to 15 days after the binder might have been used, in order that the grain may reach sufficient maturity to keep without loss from heating, bin-burning, or from being graded as damp or tough. If the weather is dry and warm this period might be shortened to 8 days, but if it is damp and cool and the stand is thin the period may have to be lengthened to as much as 20 days.

An attempt was made in the experiments at the Swift Current Station, to shorten the waiting period, and thus eliminate part of the risks from delay. Part of the crop was cut after waiting for only a few days from the time the binder might have been used and some of the grain was placed in heaps on the ground, some in ventilated bins, and the remainder passed through a dehydrator. None of these methods was satisfactory, and the conclusion was arrived at that it is important to wait for the full time after the date when the binder might have been used. Cutting with a combine a day or even a half day too soon may mean the difference between straight and tough grades.

"Marry, is my bath ready?"
"All but the hot water, ma'am, it's all ready."
"What's the matter with the hot water?"
"It's cold, ma'am."

For the purpose of establishing three aerial bases in the Hudson Strait area, a government aerial expedition has been sent out from Ottawa.

The arrangements were reviewed by Hon. C. A. Dunning, minister of the government, and at the final meeting of the board the alman who accompanied the expedition were received by the minister who wished them bon voyage on behalf of the government, and also to explain, in a general way, the objective of the government in regard to the entire Hudson Bay project.

In doing so, Mr. Dunning said: "You may all know something about Hudson Bay and Strait, and the part they have played in the history of the country. We say in the west that Hudson Bay was the first front door of western Canada. As an entry port for settlement it was, of course, more or less abandoned when the transcontinental railways were built. Hudson Bay is a great inland sea, probably the largest inland sea not yet exploited in the whole world, and the government of Canada has determined that the resources of the bay shall be exploited and developed. You are not going up there for the purpose of facilitating that work. That policy has already been decided upon; that is to say, the government intends to construct a railway to the bay. That railway is well on the way to completion now. It is the intention of the government also to develop a port there, first for the purpose of promoting the exploitation of the bay region generally, and secondly, to develop to the fullest possible limit Hudson Bay and Strait as a transatlantic outlet for the products of the west, or any part of the country that may desire to make use of the facilities thus established.

"It is the policy of the government to provide for the development of the best port on the bay in order that all the resources of the territory adjacent to and surrounding the bay may be exploited and developed. Secondly, it is the intention of the government to provide, so far as the facts will permit, you will determine will permit, for ocean navigation from a port on the bay to any other part of the world. Your part has to do with determining what aids to navigation can be devised as the result of your own observations of conditions there, to lengthen to its utmost limit the known period of navigation through the Strait. We know that the bay itself does not freeze over; we assume that navigation within the bay is open for a greater length of time than navigation in the Strait. Your expedition will gain useful information in that connection. It is a fact, nevertheless, that the Strait has been navigated at various periods of the year for thousands of years. It may be said it has not been commercially navigated, has not become a great ocean highway such as the North Atlantic. Upon what you are able to derive by means of your observations, upon what the technical officers of the department of marine and fisheries are able afterwards to provide by way of scientific aids to navigation, will depend the development of a new transatlantic route for a considerable portion of the year.

Winter Rye

Winter rye is a crop that is growing in favor in Saskatchewan. Canada as a whole last year produced 2,594,000 bushels on 561,552 acres of land, an average yield of 11.6 bushels per acre. Of this amount Saskatchewan produced 736,000 bushels on 201,566 acres, the average yield being 18.5 bushels. Ten years ago the total acreage of winter rye in Saskatchewan amounted to only 35,000 acres. This year a total of 216,300 acres are sown to this cereal.

"You look dejected."
"Yes, married life gets on my nerves."
"Been married long?"
"No. The wedding takes place tomorrow."
"What! You've cut off your most beautiful attribute—your long hair?"
"Well, I can tell you how I wasn't!"

Good Seed

Now is the Time to Secure Good Seed For Next Year

Now is the time to take steps to secure good seed for next year, states Mr. F. R. Cowan, cerealist at the Central Experimental Farm. The best part of a wheat, oats or barley field should be stalked off to be harvested separately. Any heads that are of type, weak or diseased heads, other cultivated plants and noxious weeds should be pulled, going over the plot at least three times until it is clean. Before harvesting a strip should be cut around the plot to facilitate a separate harvesting. The binder must be thoroughly clean before the cutting and the plot stalked and threshed by itself. The threshing must be absolutely clean, and the seed plot threshed into clean bags. If the grain is not dry the bags should be only partially filled and not too many piled together. The bags should be turned over daily until the grain is dry. Early in the winter the seed should be thoroughly cleaned using a scrupulously clean fanning machine and clean bags.

A Nightgown of Exquisite Daintiness

The woman who delights in making her own lingerie will recognize in this dainty nightgown an unusually attractive style. View A illustrates effectively the use of lace for the vestee and band sleeves, while a giraffe of the material is tied in a chic bow at the bust. View B has the vestee omitted and is quite plain except for the tucks which run from each shoulder to the waist, while the sleeves and giraffe are of ribbon. No. 1565 is in sizes 36, 40 and 44 inches bust. Size 40 requires 5 1/2 yards 32 or 38-inch material. View A requires 3 1/2 yard all-over lace for vestee and 1 1/2 yards 14-inch lace for sleeves. View B requires 4 yards 14-inch ribbon for sleeves and giraffe. Price 30 cents the pattern.

The garments illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her designs fulfilled in our patterns. Price of the book 10 cents the copy.

Canada's wealth is increasing at a rate unequalled by any other country—\$1,109 per capita in 1908, \$2,525 in 1926.

It is easier to acquire a good reputation than it is to keep the freedom off it later.

Woodstock Greets Woodstock

Bearer of a message from the Royal and Ancient Borough of Woodstock, England, to the Mayor and Council of Woodstock, Ontario, His Worship Joshua Steele, Mayor of the English town arrived in Canada on the Canadian Pacific steamship Montserrat. Mayor Steele, who was accompanied by his daughter Miss Betty Steele, Mayress of Woodstock, was a distinguished guest of the Ontario town during the Diamond Jubilee celebrations and also the Old Boys' Reunion functions in that city.

Mayor Steele has the honor to represent one of the three Royal Boroughs in Britain, which was founded in 920 and had its thousandth

birthday about five years ago. In the twelfth century the great forests that surround the borough were enclosed by Henry I. It possesses the oldest park in England's history and with that history in bound up the existence of the borough. It was the scene of battles and sieges in the Cromwellian wars and later the shooting rights were given to the great Duke of Marlborough for his victories in the War of the Spanish Succession, while Blenheim House near Woodstock still commemorates one of his most famous battles. No less famous in literature, Woodstock is made immortal by Sir Walter Scott's novel of the same name, and by James' story of Henry the Hunter.

WORLD HAPPENINGS
BRIEFLY TOLD

H.H.H. the Prince of Wales, will visit Vancouver and Victoria after August 10.

The population of Edmonton, as shown by the official city census figures made public today, is 57,052, an increase of 1,950 over the Dominion Government totals of last year.

An increase in wages and adjustment of working rules is sought by Canadian National telegraph employees, who started negotiations with the management through the international union representatives.

The New York Herald-Tribune says that Colonel R. Rex Renner, former officer of the Lafayette Escadrille and World War ace, announced that he would attempt a flight to Paris and return in 24 hours. The hop will be made in September, he said.

It is possible that Australia's 1931 exhibition may be of a British Empire character. There is a suggestion that the King may be invited to open it, but as His Majesty is unlikely to go, the Prince of Wales will be invited to perform the ceremony.

Homestead entries for the first five months of the present year in the four western provinces total 2,261, as against 2,381 for the corresponding five months of last year. Saskatchewan ewe heads the list with 1,038 entries, followed by Alberta with 913, Manitoba with 273, and British Columbia with 37.

Rt. Hon. Ramsay MacDonald, leader of the Labor party in the United Kingdom, will not accompany Hon. Charles Dunning and party to the Hudson Bay this summer. Mr. Dunning is as yet unable to fix a time for his trip. He has not yet heard when Frederick Palmer, the port engineer, will reach the capital.

Twenty-five thousand ponies, sent by the Canadian Government for free distribution in England, arrived in Liverpool on the liner, *Albion*. A staff of girls sent by a London florist immediately began the task of transferring bunches of flowers to 2,500 cardboard boxes for despatch to members and officials of public bodies all over the country.

Sorting Mail In Air

British Air Ministry Is Making Test of Special Plan

An aeroplane specially designed for the rapid transport of mails is being tested by the Air Ministry. It will carry, besides the pilot and an engineer, a postal sorter, who will continue his work while flying at 100 miles an hour.

This latest type of mail aeroplane is fitted with parachutes, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes to help pull the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 h.p.

Nothing as Good for Asthma. Asthma remedies come and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

British Expedition To B.C.

Will Collect Rare Flower Seeds in Mount Garibaldi District

The Royal Horticultural Society of Great Britain, with its history of over one hundred years of good work, has decided to finance an expedition to the Mount Garibaldi district of British Columbia for the purpose of collecting seeds from the numerous rare and beautiful flowers which revel in the higher slopes of these grand hills. J. C. Bennett, Lake Hill, alpine and rare plant specialist, is to organize and direct the expedition.

Corn cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Canadian Is Appointed

Dr. R. T. Edwards, professor of botany at McGill university, Montreal, has been appointed by the Commonwealth Government as chief mycologist of the council of scientific and industrial research, Australia.

W. N. U. 1690

M. B. MURPHY

Terminal Superintendent Canadian National Railways, Winnipeg, who is transferred to Hornepayne, Ont.

Layette for the New Baby

Clothes for the new baby may be made with a great saving of time and trouble, when using the pattern for this layette. Every garment required in the new baby's wardrobe is included. The first long dress of soft nainsook is made dainty with tucks, and a yoke with touches of embroidery. A second dress of the same material has tucks running into the shoulder, embroidery, and narrow lace trimming the neck and sleeves. A petticoat skirt buttoning on the shoulders is worn beneath the dress, and to provide extra warmth for cool days a burrow-coat of soft wool with shaped top should be worn. A diaper-band, skirt with kimono sleeves buttoning up the front, together with nightgown having extension buttoning from back onto front, completes this layette, which is cut in one size only. Dress requires 1½ yards of 36-inch material, nightgown 1½ yards, straight petticoat, 1½ yards, skirt ¾ yard, diaper-band ½ yard. Price 20 cents.

Many styles having a smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

Almost any one will take your advice, but one out of a hundred will generate faith enough to use it.

The important event in many a man's life is an accident—the accident of birth.

About the only way to convince a contrary man that he is wrong is to agree with him.

Comets Baffle Astronomers

Laws That Govern These Bodies Are Still a Mystery

Comets are strange bodies that baffle even the minds of those behind the huge telescopes in the observatories. Travelling at a dizzy speed they rush toward the sun, travel around it, and then return to the distant spaces from which they emerged.

Edmund Halley, an English astronomer, began studying the orbits of comets, and in 1682 he calculated that the comet then visible would return in 1759. When in December of that year the comet did re-appear, scientists realized that Halley had made an extremely important contribution to the study of comets, and this particular one was named after him.

With Halley's computations the study of comets was rendered infinitely more simple than it had been previous to his time. There still remains the question as to how these swift travellers begin their journeys and what their significance may be to a universe governed by inexorable laws. Scientists have yet to discover the unknown laws that govern these bodies, for they seem somehow to flout those laws already known.

Wheat Pool Agency

For South America

Western Canadian Wheat Pools Will Establish Selling Agency in the Argentine

W. J. Jackman has been appointed resident representative in the Argentine for the selling agency of the three Western Canadian wheat pools. He will leave for his new field of work early in September and will have his headquarters in Buenos Aires.

The appointment is the outcome of a scouting trip that Mr. Jackman made to South America last year for the purpose of inquiring into the general conditions of the wheat trade in that country. It has since been decided by the wheat pools to be permanently represented there and while the office will be of a somewhat experimental character it is intended to give it a thorough trial, in expectation of the two countries coming into fairly close relations as both producers and exporters of wheat.

Hubby (quite flourishingly) Marriage is a lottery." Wife—"What's that?" Hubby—"And I won a prize."

Airships Terminal Planned

\$350,000 To Be Spent On Equipment In South Africa

Plans concerning the projected mooring mast and ground equipment for an airship terminal in the Union of South Africa are almost completed. It is agreed that the airship service shall be controlled by the Union's railway administration and that approximately \$350,000 will be spent on the mast itself. It is understood this will be located near Cape Town. The Government committed itself to construction of a mast as the Union's contribution to an inter-Empire airship service.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorder of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Believed Oldest Inhabitant

Believed to have been the oldest inhabitant of Canada, Mrs. Margaret Thickfoot, of Saulteaux Indian extraction, is dead at the Jackhead Indian Reserve near Lake Winnipeg at the age of 112. Until recently the squaw had full use of all her faculties. She was the widow of Chief Thickfoot, who before his death many years ago, played an important part in the Christianizing of the Saulteaux Indians.

SUNDAY SCHOOL LESSON

JULY 24

DAVID AND GOLIATH

Golden Text: "Jehovah is the strength of my life: whom shall I be afraid?"—Psalm 27:1-5.
Lesson: 1 Samuel 17.
Devotional Reading: Psalm 27:1-5.

Explanations and Comments

1. The Philistine Peril—And Goliath's Challenge, verses 1-11.—The armies of the Israelites and of the Philistines were encamped on opposite heights of the Valley of Elah. Every morning and evening for forty days a Philistine giant named Goliath had stood forth and challenged the Israelites to settle the matter by single combat, saying: "I defy the armies of Israel; give me a man that we may fight together. If he is able to fight with me, and kill me, then will we be your servants; but if I prevail against him, then shall ye be our servants and serve us." The Israelites were utterly dismayed. When they saw Goliath approaching, they fled.

"Goliath boasted of just the things in which men are prone to boast today. He had physical strength. His sword was six cubits and a span. Athletics had done all they could for him, and he was a fine type of animal perfection. He had splendid military equipment—a helmet of brass, a coat of mail and a spear like a weaver's beam. Surely, if fine material equipment determines combat, the shepherd-lad from the hills of Bethlehem will be annihilated. And he enjoyed the enthusiastic confidence of the Philistines. He was his nation's pride and glory. He strode out amid their shouts, and the cheers were like iron in his blood. But all this counted for nothing, because God was against him."

"Men and nations may attain to a fine animalism, their warlike equipment may satisfy the most exacting standard, and yet, with God against them, they shall be as structures woven of air, and they shall collapse at the touch of apparent weakness. The issue was not Goliath versus David, but Goliath versus God!"—J. H. Jowett.

Your Home Medicine Chest.

Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Canada's Water Power Wealth

Only One-tenth of Dominion Resources Now Used

Although development of Canada's hydro-electric energy last year brought the total now harnessed to 4,189,275 horse-power, this is only one-tenth of the Dominion's resources, says the Dominion Statistician. He adds that with an average of 820 kilowatt hours per person per year, Canada leads the world in the consumption of hydro-electric energy according to population. Switzerland is second with 700; Norway third with 483; and the United States fourth with 427. The United Kingdom is not yet in the running. New installations for industrial purposes are increasing in Canada at the rate of 20 per cent. per annum, compared with 12 per cent. in the United States. During the past 24 years the increased use of water power for industrial purposes has been 590 per cent., and in the United States 400 per cent.

GRAND TRUNK SHAREHOLDERS WANT TEST CASE

London.—Lord Askwith chairman of the Grand Trunk Railway, junior stock holders organization, at an extraordinary general meeting of the shareholders here after resolutions had been passed asking for the conversion of the existing £1 shares into preference shares, mentioned that a meeting of the old Grand Trunk proprietors would be held to decide on what measures to adopt in the interests of those concerned.

Lord Askwith suggested that the stock holders should provide money for the purpose of making a test case of their rights and after quoting the opinion of Sir John Simon, who has been associated with other eminent lawyers in the matter, said the committee did not feel justified in abandoning the case without taking legal proceedings.

The resolutions passed at the meeting provided for the conversion of the existing £1 shares into preference shares with priority as to capital, the increase of the capital from 10,000 shares of £1 each to £25,000, by creating 850,000 new ordinary shares of a shilling each, and also providing for changing the organization's name to that of the Grand Trunk Junior Stocks, Limited.

The Grand Trunk Junior stockholders, several years ago, became incorporated as a private limited company whose objects were "to secure and obtain and receive compensation as an act of grace or otherwise for the former holders of first, second or third preference and ordinary stock."

Ottawa.—The Canadian Government will not take any immediate action as a result of the decision of the Grand Trunk Railway junior stockholders' organization, it was officially stated here.

"The Government will meet the legal situation when it arises in definite form," Hon. C. A. Dunning, Minister of Railways and Canals, said, after reading London despatches reporting the action of the stockholders.

Rapid Transit Plans

African Railroad May Use Pullmans by Night, and Aeroplanes by Day

Washington.—The statement of William P. MacCracken, Jr., assistant secretary of the department of commerce for aviation, made at Cedar Point, Ohio, that five railroads are planning to use aeroplanes to supplement their service caused much comment here. The Government will encourage the carriers in this program.

Railroad managers have in mind a part rail and part air trip from New York to the Pacific coast. It was pointed out it would soon be possible for a person to travel by train from New York to Chicago by night, take a plane from Chicago to Salt Lake City by day, and shorten the time to the coast materially. This is only one of the long jumps that can be made Pullman by night and aeroplanes by day. "The sort of combination transportation it is believed will become popular within a few years."

Floods in China

Shanghai.—More than 1,000 persons are reported to have been drowned and tens of thousands of people rendered homeless by floods in South Anhwei province, according to belated reports received here. The floods are reported to have taken place July 4.

Apply for Licenses

Winnipeg.—Application "has" been made at the provincial secretary's office for a license to allow the Sherritt-Gordon Mining Company, a \$6,000,000 mining company of Ontario, to operate in Manitoba.

Release Madame Borodin

London.—Madame Borodin, the wife of Michael Borodin, advisor to the Hunkow Government, who has been under arrest at Peking, has been released, according to the Daily Mail's Peking correspondent.

W. N. U. 1690

Hog Grading Regulations

Owing to Criticisms New Ruling Will Not Be Enforced Present

Ottawa, Ont.—As a result of criticisms received by the department of agriculture in connection with the new hog grading regulations, it has been decided not to put them into effect July 15. It is probable that some change in the wording will be made and that the new draft will not be put into effect until August 1 or later.

In addition to the need of changes in the regulations, there are administrative difficulties in the way. It is understood that some of the parties, whose cooperation is essential if the grade of hogs is to be carried back to producers, are not now willing to assist in the scheme, several conferences will have to take place before the problem will be solved.

Meantime the whole situation will be discussed at a meeting of the ewine committee, to be held in Regina on July 19. The federal department will be represented by L. C. McOutat of the livestock branch.

President of Alberta Law Society Dead

Dr. Conybeare Was One of Leading Lawyers in Province

Leithbridge, Alta.—Dr. C. F. Conybeare K.C., dean of the Leithbridge bar, died suddenly at his home, July 13. Heart failure was the cause. Dr. Conybeare who was 67 years of age, was born at Little Sutton, England, and came to Leithbridge in 1898 from Winnipeg. He had been Crown prosecutor here during the whole of his career in Leithbridge.

He was president of the Alberta Law Society, succeeding the late James Muir. Dr. Conybeare, besides being one of the leading lawyers in the province, was a leader in the Knights of Pythias and had been grand lodge officer for many years. He was also a poet and writer of some note, being especially well versed on Indian lore.

Editors Will Visit Prince

British Newspaper Men Going to Ranch at High River

Ottawa.—The party of British newspaper men and their wives that will arrive in Quebec on August 12 will pay a visit to the Prince of Wales ranch at High River, Alta., on August 24, according to word received here. It is expected that the Prince and his brother Prince George will be at the ranch at that time and that they will personally receive the visitors. The party will be the most distinguished newspaper group that has visited Canada since the Imperial Press Conference in 1920.

Sales Show Increase

Life Insurance Business in Canada Reaches High Record

Montreal.—Eighteen per cent. more ordinary life insurance was purchased in Canada during the month of May than in May, 1926, according to the Life Insurance Sales Research Bureau. During the month \$44,553,000 of new business was paid for by companies having in force 84 per cent. of the total outstanding business in Canada. This is the highest record ever made in any month with the exception of December, 1926, and May sales are only \$2,513,000 below the December record.

Put Ban on Sun Dance

Paynton.—The Indians began their sun dance a week ago on Poundmaker's Reserve nine miles south of Paynton. For several days Indians from the north had been coming in large numbers to take part or be spectators. Tuesday a R.C.M.P. officer from Battleford arrived and stopped the dance, which is forbidden by the Dominion Government. Four of the leading Indians were taken to Battleford and were later released.

Recount Elects Conservative

Winnipeg.—Dr. E. J. Rutledge, Conservative, was declared officially elected to the Manitoba Legislature following completion of a recount in the constituency of Minnedosa, where he was credited with a majority of three votes over his Liberal and Progressive opponents on election night. The final figures gave Dr. Rutledge a margin of 14 votes.

STUDENTS FROM OLD COUNTRY AS HARVESTERS

Montreal.—Canadian Pacific steamship arrivals over the week-end—the Montrose, the Melita, and Empress of Scotland—brought over 1,600 newcomers to be added to Canadian population. Practically the entire week-end's immigration quota will be absorbed by agriculture or domestic service.

A party of 50 students recruited from various universities and agricultural colleges in the British Isles is coming to aid in the gathering of the Western Canadian harvest. These first arrivals will proceed direct to Toronto, where they will be placed by the Ontario Government on provincial farms for a month's work. At the end of this period they will travel west to be absorbed in harvest work in Saskatchewan through the agency of the British Immigration League. This party constitutes only the vanguard of the student army to attack the western Canadian wheat crop. Up to three thousand students are expected.

Given Control Of Indian Reserve Roads

British Columbia and Federal Governments Reach Agreement

Victoria.—By an agreement between the British Columbia Government and the Federal Government, roads through Indian Reserves in this province will be owned by the Province. At present they are held by the Federal Government for its wards, the Indians.

The arrangement will be ratified formally shortly following negotiations between Hon. W. H. Sutherland, minister of public works, and the Federal authorities.

Insect Plague in B.C.

Grasshoppers Threaten Serious Loss to Agriculturists

Victoria, B.C.—Tons of poison bait are being sent out by the department of agriculture to combat threatened serious losses in agricultural areas of British Columbia from insects. Reported in their natural progress, British grasshoppers are beginning to hatch out in millions while the clover root borer has appeared in the North Okanagan district, apparently from the State of Washington, where the insect makes clover-growing in some districts impossible.

Divers Locate Valuable Cargo

Genoa, Italy.—Divers have succeeded in locating the steamer Washington, which was sunk in October, 1917, by a German submarine while on the way from America to Genoa. They found the vessel at Camogli not far from Genoa. The Washington had a cargo of copper worth \$60,000,000, which it is hoped to recover.

Lunch Swimming-Pool Style

There's nothing like a bite to eat after a swim. At least that is what these young ladies maintain, and from the general consensus of opinion they aren't far wrong.

The photograph was taken recently at the Chateau Lake Louise swimming pool and not the head of the attractive feature are the two young ladies who decided that the invigorating water of the pool was too much for their appetites. The waiter admitted that serving lunch swimming-

Will Execute Wife Of Naval Commander

Aided Husband in Espionage for Britain in Soviet Charge

Moscow, Soviet Russia.—Mrs. Klepikoff has been sentenced to death by a court martial at Kronstadt, on the charge of aiding her husband, Commander Klepikoff, in espionage for Great Britain. Klepikoff, who formerly commanded a ship in the Baltic fleet, was executed by a firing squad recently after being found guilty of espionage. He was alleged to have confessed to giving a report to a British intelligence agent in Finland containing information on the condition of the Soviet armed forces, particularly the navy. At the same time Mrs. Klepikoff was sentenced to three years imprisonment for complicity, but the supreme court failed to confirm the sentence. She was then brought to trial before a court martial.

Succumbs To Injuries

Cecil K. Parrish Dies as a Result of Automobile Accident

Winnipeg.—Succumbing to injuries received in an automobile accident on the Beach road Saturday, Cecil K. Parrish died at St. Boniface hospital on Tuesday evening.

The late Mr. Parrish was well known among the younger business men of Winnipeg, and for more than twenty years has been in the employ of the Toronto Type Foundry Co., Ltd., as accountant. He was a member of the Traffic Club, but it was in bowling circles that he was most widely known, and had served on the executive of the Winnipeg Bowling Association every year since its inception. Of a retiring disposition he never sought to push himself forward, but was always unflinching in his time in the furtherance of anything in which he was interested.

Ontario Wheat Pool

Eastern Provinces Has Affiliated With Western Organization

Toronto.—For the purpose of marketing its produce the newly formed Ontario Wheat Pool has affiliated with the similar organizations in the three western provinces and, it is expected, will soon have representation on what is known as the Central Selling Board for the western pool. Members of this board have arrived in Toronto to complete arrangements. The members of the board will stay in the city until final details of the affiliation have been completed.

Earthquake in Palestine

London.—The Daily Mail's Haifa (Syria) correspondent says that 500 persons were killed in the earthquake in Palestine and Trans-Jordan, and that more than 700 houses in Jerusalem and the surrounding districts were damaged. These include the Greek convent and the Patriarch's residence on the Mount of Olives. A minaret fell while a sheik was reciting prayers, killing him.

VISITOR URGES EXTENDED TRADE WITH AUSTRALIA

Winnipeg.—"Though the products of Australia and Canada are similar, there are many opportunities for trade between the two countries," said Sir George Fairbairn, agent general for Victoria in London, England, who arrived in Winnipeg over Canadian Pacific lines. Sir George, who is accompanied by Lady Fairbairn, is on route to his home in Melbourne, and will spend several days at Lake Louise and at Vancouver, before sailing on to the Aorangi, July 27.

"Wool and lumber are the two great exchanges we can make commercially," continued Sir George, "though dried fruits are fast becoming a source of revenue. The government has established returned soldiers on fruit farms in the great irrigated district of Victoria and New South Wales, and they are successfully growing saltans, prunes and other fruits which, dried, are finding a large market."

"Much of the land which formerly was used for sheep farming has been bought back by the government and sold to settlers with the idea of growing wheat, the Commonwealth now equalling about one-third of Canada's production. It is also doing its part in agriculture; within the next three years, we expect to put into operation what will be the third-largest reservoir in the world. Fed from the Murray River, this reservoir will have 8,000 miles of channels, covering 2,000,000 acres. This means that a depth of 12 inches can be poured over 2,000,000 acres. The cost of the work will be in the vicinity of \$15,000,000," Sir George said.

Lady Fairbairn has made many trips across Canada going back and forth to school in England.

Wild Animal Invasion

Cougars and Bears Reported Plentiful in Vancouver District

Vancouver.—The latest report in what seems to be a wild animal invasion of Vancouver and vicinity was that a woman had seen a cougar in Stanley Park here. She was confident that it was not a dog or any large tame animal. Officials doubt that a cougar would be in the park but are combing the woods. A cougar was found in the park some years ago.

Pitt Lake, some miles from the city, reports that two loggers were chased up a tree by bears. The animals were so numerous and bold around the camps in the district that they have broken into pantries and taken food. The loggers have been in the wilds being given as the reason for the influx. A number of bears weighing from 100 to 500 pounds have been shot. Similar reports have been received from other localities. At Seymour the loggers have shown a taste for bacon, mutton and cheese. A number of goats have been killed. A bear was seen on the Burnaby Lake Interurban line near here, while three cougars were killed on the same line, necessitating furling of the Interurban.

French Armed Sloop at Montreal

Montreal.—The Ville D'ys an armoured sloop belonging to the French government, has enigmatically "dip" in response to the same courtesy from steamships lying in the harbor, steamed slowly into Montreal recently. She is under the command of Captain Emile Antoine, of the French navy, who paid a visit to the French consul immediately on arrival. She will remain here for a week, and will later proceed to Quebec.

Will Be Guest of Honor

Toronto.—Lord Howard of Dyffryn, chief justice of England, will address the Canadian Bar Association annual meeting here this month and be a guest of honor at the dinner on August 28 to be given by the Law Society of Upper Canada to the council of the Canadian Bar Association and its distinguished visitors.

Queen Victoria's toys were recently put on exhibition at the State Apartments of Kensington Palace.

Canadian Pacific Pride for Atlantic Service

1. The Tallest Officer and Smallest Sailor. 2. Interior of Gymnasium. 3. German Floating Mine Forms a Novel Lesson. 4. Captain R. G. Latta, R. N. R., Commander of the Empress of Australia. 5. Latest Photo of the Canadian Pacific Empress of Australia.

Formerly on the Pacific Service of the Canadian Pacific Steamships Limited plying between Vancouver and the Orient, the Empress of Australia has for the past six months been in Great Britain, in the hands of Fairfield Shipbuilding Company by whom the vessel has been completely re-engineered and re-conditioned, so that she is entering the Atlantic service in her new career virtually a new ship.

This luxurious vessel displaces 21,369 tons, and carries 1,176 passengers. In the luxury of her fittings the Empress of Australia is the pride of the Canadian Pacific fleet. Specially attractive are the high-domed dining rooms in the style of the

French Regency and the Louis XIX. smoking room with its oak panels and tapestry decorations. Tourist third class passenger traffic across the Atlantic which is greatly on the increase, is catered to on generous lines, the accommodation provided being equal to what most first class passengers got twenty years ago.

The Australia took her first trip from the Clyde to Southampton in June and answered every test. She developed four knots a hour above her schedule with a fuel consumption less by fifty per cent. At Southampton Mayor P. Borer, who is also ex-officio admiral of the Port, headed a civic welcome to the ship and was welcomed on board by Sir George

McLaren Brown, European General Manager of the Canadian Pacific. Under the command of Captain J. G. Latta her second voyage will be honored by the Prince of Wales and Premier Baldwin of Great Britain and Mrs. Baldwin, on July 23. Commander Latta is known to thousands of passengers from all parts of America and the British Isles having been in command of the Round-The-World cruises of the Empress of Scotland. This winter, however, the Empress of Australia will be used as the world-cruise ship of the Canadian Pacific sailing on this well-known four-months voyage to the four corners of the earth from New York in December.

Inga Councillors meet in
Stony Plain on Friday, Aug.
5th.

The Walther League are
holding their convention, com-
mencing today and continu-
ing to Sunday next.

The summer camp of the
Walther League is being held
at Seba Beach this year, be-
ginning Monday next, the
25th, and ending July 31.

Muir Lake Sporting Club
are holding a dance Friday,
August 5th.

On Wednesday, July 20th,
Father G. J. Bradley, S.J., Re-
gina, commenced a Mission at
St. Dominic's church, Duffield,
and this will terminate Sun-
day July 24. The evening ser-
vice begins at 8.

Some of the chaps who
take a car without the own-
er's consent don't have much
luck. Mr Turlock of Duffield
had his car taken from his
place during the evening of
July 13. The taker headed
down to the Mewassin trail
and turned east, but on get-
ting to the detour corner op-
posite the Zahn farm, tried
to cross the slough on the
old grade, became submerged
and abandoned the car. Mr
Bowler noticed, the next
morning, the predicament the
car was in, and when no one
put in an appearance within a
reasonable time, notified the
authorities.

Lutheran Synod Convenes.

The fifth annual convention
of the Alberta and British
Columbia districts of the Lu-
theran Missouri Synod was
held at St. Matthew's Church
July 13-19. Delegates and pas-
tors to the number of 42 as-
sembled on Wednesday morn-
ing to hear the convention
sermon which was preached
by Rev F. Pfotenbauer, D. D.
of Chicago, Ill., president of
the Missouri Synod.

The morning sessions were
devoted to doctrinal discus-
sion, led by Prof F. Pieper, D.
D., professor of doctrinal the-
ology at Concordia Seminary,
St. Louis, Mo., the largest di-
vinity school of the world. In
forceful popular manner, the
learned doctor spoke on "The
Power of the Gospel," show-
ing that the gospel of Christ
was Crucified and it alone is
able to convert, reform and
save fallen man.

President A. J. Mueller was
re-elected to that office in the
election held Thursday. Rev C.
Thies of Edmonton became
vice-president and director of
missions. Rev W. Eifert of
Leduc was elected Secretary.
The report on missions in-
dicated satisfactory progress both
in the province of Alberta and
in British Columbia. The de-
partment of immigration un-
der the direction of Rev C.
Thies reported that over 200
immigrants had been placed
on farms in this province.

On Thursday evening Past-
or John E. Herzer of Calgary
preached the pastoral sermon,
and on Monday night Rev C.
Janzow of Nelson, B. C.,
preached a sermon on Chris-
tian Education. A service in
the interests of missions was
held Sunday morning, in which
Rev F. Pfotenbauer, D. D.,
preached an inspiring sermon
on the duty of soul saving.

Rev A. Apelt of Wetaaki-
in, formerly pastor and mis-
sionary in New Zealand and
Australia, gave a vivid de-
scription of the Maori tribe
and of missionary efforts on
their behalf.

A service commemorating
the diamond jubilee of Can-
ada was held in St. Matthew
church on Sunday afternoon.
Over 500 people listened to
an eloquent address by Prof.
A. Rehwindel of Concordia
College, Edmonton, who dwelt
on the blessings which Canada
enjoyed by the grace of God.
In the evening a memorial
service was held, at which the
unveiling of tablets in mem-
ory of the pioneers of the
Missouri Synod as well as
those who had carried for-
ward the work of the gospel
in Alberta, took place. Rev
F. Pfotenbauer and Prof F.
Pieper delivered addresses.
The tablet dedicated to the
memory of Mrs E. Eberhard,
deceased wife of Rev E. Eber-
hardt of Stony Plain, whose
faithful service is remembered
here, was unveiled by Pres.
A. J. Mueller, who in impres-
sive words spoke of the sacri-
fice and devotion of the de-
parted.

The interesting sessions
ended on Tuesday afternoon
when the visitors departed to
their respective parishes.
Special mention was made by
various speakers of the hearty
welcome which the convention
found in the district, and a rising
vote of thanks was given to the
members and pas or of St. Mat-
thew's who have established a new
record in their proverbial hospi-
tality.

Stony Plain and District.

Died—On Tuesday, July
19, at the residence of her
daughter, Mrs Henry Goerz,
there passed away Mrs Eliza-
beth Armbruster, in her 80th
year. She leaves to mourn her
loss one daughter, Mrs Goerz,
and two sons, John of Stony
Plain, and Jacob, of Vernon,
B.C. The funeral takes place
today.

A young man from Vegre-
ville, a Mr Botasford, principal
at one of the schools there,
had quite an experience one
evening last week while driv-
ing his car along the road al-
lowance south from Rosen-
thal school. Taking it for
granted there was still a pass-
able road where one had been
last summer, he was quite
surprised to find his car dis-
appearing in a slough while
crossing a grade. To extricate
the car a team of horses was
obtained, and this proving in-
adequate two more horses
were hooked on. Still no re-
sults. Finally a tractor was
brought into service, and this
was successful in dragging the
car back on to dry land. This
danger spot is in division 6.

Spruce Grove News

Mr and Mrs M. A. McLeod
have returned after spending
a short vacation in Edmon-
ton.

Miss L. M. Brox is spending
her vacation at Banff, motor-
ing down with Mr and Mrs
L. Eccles and friends, who are
also spending their holidays
at Banff.

Mrs Ph. Schwindt returned
last week from a month's visit
with friends at Vancouver.

Father O'Halloran of Cas-
tor was visiting old friends
here on Saturday.

Mr and Mrs J. G. Shum-
m returned this week from a
trip to Jasper.

Mrs Waters of Calgary is
visiting, this week, with her
sister Mrs R. Sherwin.

Mr Chas. Rice, of Vernon,
B.C., is visiting here.

Mr M. Ducholke returned
on Saturday from a business
trip to Athabasca.

The Mission Festival at St.
Matthew Lutheran Church
(Manitoba Synod) will be held
Sunday July 31.

On Sunday July 31st Rev
R. Smit, O.M.L., well known
Oblate missionary, will offer
Holy Mass and preach in
German at St. Joseph church.
The hour for services is ten
o'clock.

Happy Pigs.

A butcher walking down
Main street, passed a dairy
and noticed the sign "Milk
from Contented Cows." He
was impressed with the idea,
and decided to adopt it in his
line of business, so the follow-
ing morning the sign appeared
in his window: "Sausages
from Pigs that Died Happy."
